# ABOUT EVENT

# WOGE2023

## Introduction

World Oil and Gas Equipment Exhibition (WOGE), Organized by Innovation Exhibitions, got support from our partners, such as, China Chamber of Commerce for Import and Export of Machinery and Electronic Products, Petroleum Chamber of All-China Federation of Industry and Commerce, Hainan Oil, Gas and Chemical Industry Federation and REDSAIL MICE. WOGE 2023 will be held at Hainan International Convention and Exhibition Center, located at Haikou city, on 26-28 October 2023 and welcome to be part of us.

# History

WOGA, formerly known as Oil and Gas Meet The Buyers (OGMTB), has been successfully held in Oman, Iran, Russia and China for 7 years.

## Location

### Hainan Free Trade Port

With an area of 34,000 square kilometers, Hainan Free Trade Port will be the largest of its kind in the world after it is fully established by 2025. It is to benchmark the highest level of opening-up of China and shall be one of the most open regions in the world when its reform and opening measures are well in place.

From May 1st, 2018, individuals with ordinary passports from 59 countries, for example, The United States, Canada, Australia, New Zealand, South Korea, Japan, Singapore, Malaysia, Thailand, Philippines, Indonesia, Brunei, United Arab Emirates, Qatar, United Kingdom, France, Germany, Norway, Italy, Spain, Greece, Kazakhstan, Russia, Belarus, Ukraine, Brazil and Mexico, are eligible for visa-free entry to Hainan and can stay in the province for up to 30 days.

The oil and gas industry in Hainan has formed an industrial chain integrating exploration, development, processing, storage, logistics and sales. By 2025, the output value of new petrochemical materials in Hainan will reach 28.6 billion USD. Hainan has Yangpu, Dongfang and other deep-water ports, with 34 berths for 10,000-ton ships. The South China Sea, in south of Hainan, has huge potential for oil and gas exploration and development. The northern part of the South China Sea alone contains 10.6 billion tons of oil and 17 trillion cubic meters of natural gas.

## Why Exhibit

- To maximize **brand recognition** and exposure through exhibiting
- To talk with clients **face to face** through networking opportunities
- To establish direct contact with **decision makers** during matchmaking
- To learn about **new products**, technologies and trends by attending forums
- To keep an eye on competitors and gain a **winning advantage**

# Exhibit Categories

## Petroleum Equipment

Exploration, Drilling Equipment, Fracturing Equipment, Solid Control System, Wellhead Equipment, Downhole Tools, Storage and Transportation, Environmental Protection, Oil Field Special Vehicles, Oil Field Intelligent Equipment, etc.

## Offshore

Offshore Drilling Platform, Multipurpose Deepwater Vessel , Heavy-Lift Crane & Pipelay Vessel, Trenching Support Vessel, Offshore Pipeline Welding, Heavy Construction Equipment, Remote Operated Vehicle, Launch Barge, Testing Device for Underwater Product, etc.

## Refining

Distillation Equipment, Centrifugal Dewatering Machine, Refinery Reactors, Catalytic Converter, Heat Exchanger, Cooling Tower, High Pressure Separator, Blower, Furnace, Combustion Furnace, Decoking Systems, Refining Column, etc.

## Gas

Natural Gas Exploration, LNG Engineering, LNG Carriers, Gas Station Equipment, Compressed Natural Gas Equipment, Heating and Urban Gas, Coal Bed Methane Mining Equipment, Cryogenic Equipment, etc.

## Safety Product

Explosion-Proof Lights, Explosion-Proof Camera, Security Monitoring, Inspection Drone, Oil and Gas Leakage Alarm Instrument, Explosion-Proof Lightning Warning System for Storage Base, Rescue Equipment, etc.

## Pipe and Fitting

Flanges, Elbows, Oil Pipes, Non-Metallic Composite Pipes, Pipe Inspection, Welding, etc.

## Pump & Valve

Mud Pumps, Canned Motor Pump, Submersible Pump, Ball Valve, Gate Valve, Check Valve, etc.

## Instrumentation

Temperature Instrumentation, Pressure Instrumentation, Level Instrumentation, Flow Instrumentation, Actuator, Testing Instrument, Instrumentation Cabinet, Wire and Cable, etc.

## New Material

Carbon Fiber, Composite Material, Nanometer Material, Special Rubber, Polyurethane, High-Performance Polyolefin Material, Coating, Adhesive, Additive, etc.

## Other

Oilfield Chemical, Anti-Corrosion, Paint, Water Treatment Agent, Petroleum Additives, etc.

# Visitor

## By Industry

Oil Company  
Oil Service Company  
Drilling Company  
EPC Engineering  
Chemical Plant  
Oil and Gas Field  
Exploration Company  
Certification Service  
Trading Company  
Logistics Company  
Maintenance Service  
Environmental Enterprise  
Government  
Research Institution  
University  
Association  
Media  
...

## By Occupation

CEO  
Purchasing Manager  
Marketing Manager  
Industrial Park Director  
Trading General Manager  
Oil City Mayor  
University President  
College Professor  
Drilling Engineer  
Institute Researcher  
Commerce Bureau Director  
Exhibition Bureau Director  
Association Secretary General  
Oilfield Senior Technician  
Maintenance Technician  
PhD Student  
Media General Manager

# CONCURRENT EVENT

## 8th World Oil Equipment Procurement Conference

World Oil Equipment Procurement Conference is a perfect business matchmaking for global buyers to conduct technical exchange, product learning, factory inspection and in-depth cooperation with quality suppliers. Meanwhile, it is also a platform for buyers to achieve supplier selection, price comparison and demand release.

**100 +** Suppliers

With above 72 m<sup>2</sup> Booth

---

**500** Buyers

from 24 Countries

---

**630** Round Discussions

in 1500 m<sup>2</sup> Matchmaking Zone

# Oil City Pavilions

Oil City Pavilions are organized by the cities that featured with centralization of oil companies, oil services and industrial parks. Furthermore, those cities also take the oil field production, refinery and port transportation as the pillar industry. The Oil City Pavilions have unified displaying style, enjoy the best location, and accompany a variety of concurrent activities.

At present, the organizer started the organizing of Oil City Pavilion in 33 oil cities all over the world, including Singapore City, Seria of Brunei, Dhahran of Saudi Arabia, Basra of Iraq, Abadan of Iran, Abu Dhabi of United Arab Emirates, Kuwait City of Kuwait, Kuala Lumpur of Malaysia, Balikpapan of Indonesia, Houston of United States and Calgary of Canada etc., as well as in Haikou City, Dongying City, Puyang City, Karamay City, etc., in China.

# University Research Application Exhibition

The Exhibition, presented with large picture and electronic introduction, will showcase transformation and application of the latest research achievements of global petroleum universities to promote the benign interaction of industry-university-research in the oil and gas field.

# 2<sup>nd</sup> World Oil and Gas Conference

2023.10.27-28 Reception Hall

World Oil and Gas Conference (WOGC) is a professional platform for multinational oil companies to introduce the latest industry development, technology innovation and project procurement. Meanwhile, It is also an important channel for people from petroleum industry to get in touch with executives of oil giants, explore cooperation opportunities, understand the latest trends of the industry and learn solutions to future challenge.

On 27-28 October 2023, the 2nd World Oil and Gas Conference (WOGC2023) will be held in the Reception Hall of Hainan International Convention and Exhibition Center. More than 100 senior experts from 25 universities and 33 cities around the world, as well as more than 1,000 industry participants will attend this conference. Besides the topic related to the development and procurement of projects under construction, the conference will also focus on the transformation of research results to production, and the harmonious development of energy and cities.

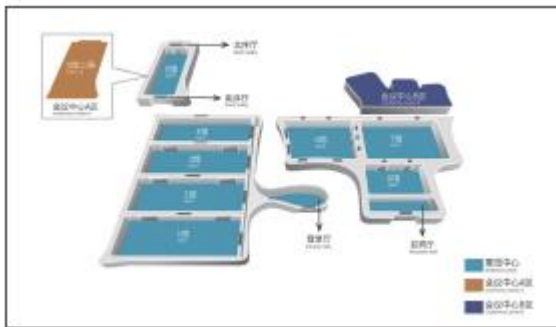

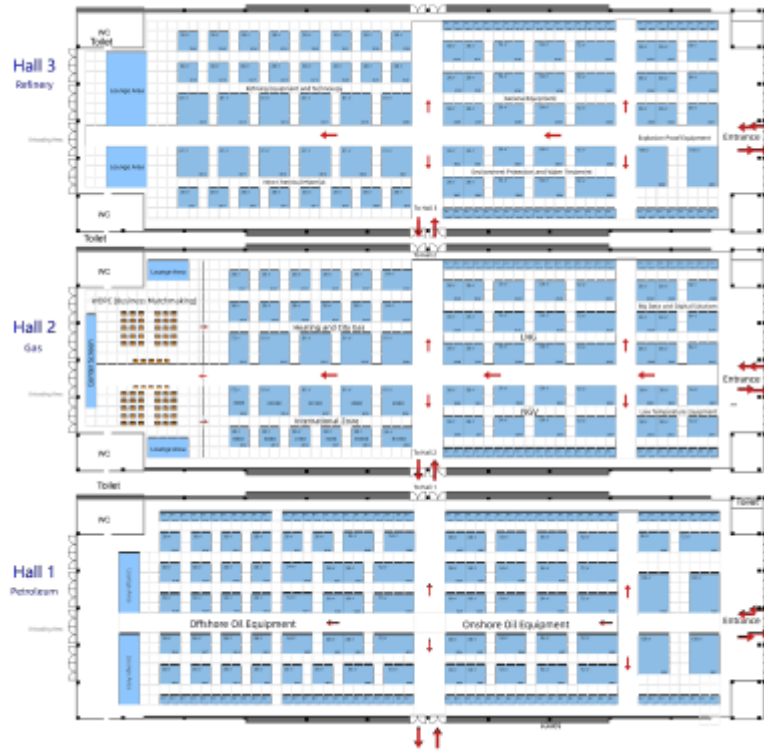

Last year, The Conference brought together the executives of **Eni Group**, **Kerui Group**, **Shandong Guantong Pipe** and **Nigerian embassy**, as well as the leaders of Hainan Provincial Department of Commerce, and Hainan Industry and Information Technology Department. In addition, Bao Yujie, Director of **Geo-Jade Petroleum Corporation**, Deepak Shinde, Head SCM of China Region of **Larsen & Toubro Ltd**, and Li Yulong, **China Huanqiu Contracting & Engineering Corp** gave online speeches.
