

5TH OG EXPO - INTERNATIONAL OIL, GAS & ENERGY EXHIBITION & CONFERENCE – ERBIL

16 - 18 DECEMBER 2023

ERBIL INTERNATIONAL FAIRGROUND

Erbil OIL, GAS, ENERGY CONFERENCE, AND EXHIBITION

Uniting Market Shareholders of the Region

Erbil Oil, Gas, Energy Conference, and Exhibition is set to take place at the **Erbil International Fair Ground** from **16th to 18th December 2023**, establishing itself as the foremost oil and gas show in Iraq. With its strategic location advantages, Erbil Oil & Gas serves as the gateway to the oil and gas sector.

Discover the Facts and Figures of Erbil Oil & Gas Fair:

The industry's growth is fueled by an increasing number of projects in the oil and gas sector. Companies worldwide are leveraging their resources to enhance their foothold in the Iraqi oil and gas market and maximize their gains in the upcoming years. In the previous edition, Erbil Oil & Gas Exhibition witnessed the participation of 200 exhibitors and 8,504 visitors, including major stakeholders from the Middle East's oil, gas, and energy market. Over 250 B2B meetings were conducted during the last edition, and we anticipate even more fruitful interactions with over 400 B2B meetings scheduled for the next edition, attracting participants from across the globe.

As one of the largest energy-related gatherings in the country, this esteemed exhibition takes center stage in northern Iraq's oil and gas sector. We proudly enjoy the official support of the Ministry of Oil and other major ministries, government institutions, ensuring a high-level audience that includes government partners, engineers, decision-makers from leading oil companies, and professionals from the construction and building industry.

Explore the latest technologies and solutions, and be part of shaping the future of the oil and gas industry in the region.

IRAQ'S OIL & GAS FIELDS

Iraq's proven reserves are in the order of 143 billion barrels, the third largest in the world. Proven reserves are found in 79 fields (70 oil and 9 gas), of which only 23 are producing. Additionally, the probable reserves are estimated to the order of 214 Billion barrels.

Current proven gas reserves are in the order of 128 TCF of which 92 are associated gas and 36 non-associated. The probable gas reserves are estimated to. The order of 325 TCF 164 associated and 161 non-as- sociated in the last two years Iraq, through two bidding rounds, concluded 11 service contracts with IOCs and national oil companies mostly in consortia for the additional development of existing brown fields and development of some discovered and appraised fields (green fields). A third round was also made for 3 discovered and appraised free gas fields.

The oil and gas market in Iraq is expected to grow at a CAGR of more than 2.4% during the forecast period of 2020 – 2025. Factors such as increasing oil and natural gas production and consumption, upcoming pipeline infrastructure projects, plans to improve oil infrastructure across the country, and rising investment in all three oil and gas sectors are expected to boost the growth for the Iraq oil and gas market during the forecast period.

WHY EXHIBIT?
